Data Dictionary

Project Name	Name of the project. If the project name includes an address, the street number has been replaced with an "x." Where there are multiple projects on the same street, the projects are differentiated using multiple "x's" (e.g. "x Court St" vs "xx Court St"). Some project names have been replaced with "Suppressed" (see "Suppressed Projects" description below).
Neighborhood	Boston Planning and Development Agency neighborhood boundaries.
Zip Code	City of Boston zip code as indicated in the Assessor's Database.
TtlProjUnits	Total number of units in the project (market-rate and income-restricted combined).
RentUnits	Total number of rental units in the project (market-rate and income-restricted combined).
OwnUnits	Total number of ownership units in the project (market-rate and income-restricted combined).
TtlMarket	Total number of market-rate units in the project.
MarketRent	Total number of market-rate rental units in the project.
MarketOwn	Total number of market-rate ownership units in the project.
Total Income-Restricted	Total number of income-restricted units in that project (ownership and rental combined).
Income-Restricted Rental	Total number of income-restricted rental units in that project.
Income-Restricted Ownership	Total number of income-restricted ownership units in that project.
Tenure	Identifies the project as consisting of ownership units, rental units, a mix of both, or a cooperative.
Public/Private	Identifies the project as either privately or publically owned. "Public/Private" signifies a Public-Private partnership.
Includes Senior Units?	Y = the project includes units designated for older adults (62+).
Section 8	Y = the project includes units financed with Project-Based Section 8 funding. These are not mobile/tenant-based vouchers.
